DGD 6605

Steam oven with pressure

- the fastest and most powerful steam oven in the world

- Rapid heat-up times and short cooking durations - PowerSteam
- Plumbed in for a high degree of operating and cleaning convenience
- Exemplary safety thanks to reliable safety systems
- Neat and tidy - pull out shelf
- Matches other appliances perfectly thanks to the lift-up door and filler panel

Type of appliance	
Steam oven with pressure	•
Lift-up door with trim at the top (for 38 cm niche)	
Lift door-up without trim at the top (for combination with AB45-7L in a 45 cm niche)	•
Display	2x7 Segment Display
Gourmet advantages	
Precise electronic temperature regulation from 40-100°C	•
Steam with pressure from 101°C to 120°C	•
External steam generation	•
Functions	
Steam cooking	•
Steam cooking with pressure	•
Convenience features	
Steam cooking on up to 3 levels at once	•
Steam reduction at end of programme	•
Actual temperature display / Recommended temperatures	•/•
Appliance door	
Lift-up door in Stainless steel-CleanSteel	-
Black lift-up door	•
Pull-out surface with self-close mechanism	•
Door hinging	links
Oven cavity	
Oven capacity in l	19
Number of shelf levels	3
Easy maintenance	
Stainless steel front with CleanSteel finish	•
External steam generator	•
Automatic descaling programme	•

Steam technology and water supply	
PowerSteam	•
Mains water connection	•
Mains drainage connection	•
Drain filter	•
Safety	
Appliance cooling system and Cool front	•
Safety switch-off / System lock	•/•
Automatic cooling down	•
Door lock	•
Double pressure release valve	•
Technical data	
Niche dimensions in mm (W x H x D)	560 x 380 x 555
Total connected load in kW / Voltage in V / Fuse rating in A	3,4 /230 /16
Accessories supplied	
Perforated stainless steel containers / Solid stainless steel containers	2/1
Condensate tray	1
Cookery book	•
Length of water inlet and drain hoses in m	1,5/2,5
Order form for 1 bottle of descaling agent	•
